WEEKLY R.M.'S LOOK-SEE

VOLUME 3

NUMBER 4

The Weekly Research Magazine's Look-See is published by the UFO Information Exchange Alliance, 2875 Sequoyah Drive, Atlanta 5, Georgia, and is dedicated to creating better understanding between UFO groups.

NJAAP REPORTS: BALL OF FIRE HITS TRAIN: A glowing red object shattered a window of the 6:28 Nottingham-Lincoln (England) diesel train near Carlton, Nottinghamshire last night. A passenger was showered with sparks and shattered glass fragments, but was unhurt. There was no sign of the object, which another passenger saw travelling "at great speed." This occurrence was reported in England's DAILY EXPRESS recently.

INS REPORTS: UFO OVER MOUNT AIRY: Mount Airy, North Carolina Police Chief Howard Summer is investigating reports of a UFO having been sighted over Mount Airy on January 19, at 11:15 AM, by at least a dozen persons. Witnesses, who saw the object for over 5 minutes, described it as being large and round. The object was also noted to be extremely bright.

BARKER PREPARES FOR RELEASE: Gray Barker, noted UFO author and publisher, has released a photo-offset copy of the contents of Space Review, the publication of Albert K. Bender's late organization, The International Flying Saucer Bureau (IFSB). This release came as a prelude to the release of Albert Bender's "solution" to the UFO mystery, in his book FLYING SAUCERS AND THE THREE MEN. Bender claims to have been silenced by three mysterious strangers several years ago, when he discovered the "truth" about the UFO's. Now Bender plans to "tell all" in his forthcoming book.

NICAP STILL URGENTLY NEEDS FUNDS: The National Investigations Committee on Aerial Phenomena (NICAP) is still in need of financial aid. Send contributions for any amount to NICAP, 1536 Connecticut Avenue, Washington 6, D.C., or to alliance headquarters for forwarding.
